Re: Name Change for the Center on Human Trafficking Research and Innovation

University Council Executive Committee:

Dr. David Okech, associate professor in the School of Social Work, was recently granted approval to establish the “Center on Human Trafficking Research and Innovation.” During the process, we received some feedback regarding the use of the word “Innovation” in the title, as it may not convey the mission of the center as clearly as possible. Dr. Okech and I have discussed the issue and come to an agreement on a slightly modified title for the center: “Center on Human Trafficking Research and Outreach.”

This addendum will be added to the center approval before forwarding to the Board of Regents.

Sincerely,

S. Jack Hu
