

Faculty Affairs Committee Report

University Council

1 December 2021

The Faculty Affairs Committee has met twice since the last report in September. The main focus of our discussions has been the Board of Regents changes to the Annual Evaluation and Post Tenure Review policies. We are working closely with the Working Group on Faculty Evaluation Policies and Practices. In my capacity as chair of FAC, I was asked by the Provost to co-chair the FEPP Working Group, along with Associate Provost Weeks. The group also includes representatives of University Council Executive Committee; Committee on Statutes, Bylaws, and Committees; and the Post-tenure Review Appeals Committee. The FAC has provided feedback and suggestions to the FEPP Working Group; we have also distributed a survey for the working group seeking input on Student Success Activities. We will continue to work on updates to relevant UGA policies this fall and throughout spring semester. The FAC wants to thank the FEPP Working Group for the on-going conversations and all their hard work on behalf of UGA. This concludes the report from Faculty Affairs.
