

## **GSA Update for University Council Meeting on September 28**

It's my pleasure to announce that the Graduate Student Association is now officially up and running for the year. We've already increased the departments represented in our GSA Council by nearly 20% and we're hopeful that this number will continue to rise throughout the year so we can ensure graduate students across campus are represented. In the meantime, our committees are fully staffed and are now starting their good work, and I look forward to providing you all updates on those developments throughout the year.
