Report on Ongoing Activities of GSA

- **Health Insurance**

We are glad to have worked with the UGA administration on improving access to Health Insurance for Graduate Students. Throughout the difficult budget process, GSA has remained committed to advocating for better health insurance coverage. We feel confident that the administration has heard these concerns and we look forward to working with them over the coming year, as this issue will continue to be critical.

Report on Past Activities of GSA

- **2011 Interdisciplinary Conference**

The 2011 Interdisciplinary Conference was a great success, with attendance by over 100 individuals representing five different universities. With support from the Graduate School and the Provost, we were able to expand the scope of the conference and look forward to building on the success in years to come.
