

## **Faculty Petition to the University Council**

**We the undersigned UGA faculty members would like to see  
this resolution on the agenda for a vote at the University  
Council**

**Whereas the Board of Regent's ban on undocumented students  
at Georgia's most selective universities represents a step  
towards the re-segregation of public education in our state,**

**And, whereas the same ban tarnishes the state's and the USG's  
reputations, squanders talent, abets hostility towards  
immigrants and makes it harder to recruit and retain faculty  
and students of all residency statuses,**

**Be it therefore resolved that the University Council opposes the  
Board of Regents' ban on undocumented students at the state's  
most selective institutions of higher education.**
